Household Energy Consumption, Emissions, Pollution, and Health Impacts in India

DISTRICT EMISSIONS

WH

STATE

Uttar Pradesh

(state and district as of census-India, 2011)

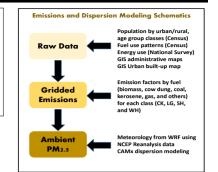

DISTRICT

Bulandshahr

Household energy consumption (HEC) emissions were calculated in four classes cooking (CK), lighting (LG), space heating (SH), and water heating (WH). Bottom-up emissions for the four classes are available @ 0.25 degree spatial resolution, and further aggregated to district and state level. A sub-classification is available by fuel biomass, coal, kerosene, liquified petroleum gas (LPG), and others.

WH

NATIONAL EMISSIONS

%Households Primary Cooking Fuel

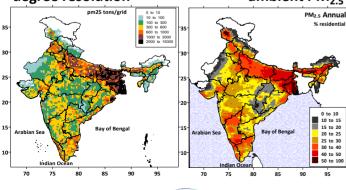

gas+elec	others
21.6%	78.4%

Estimated district annual HEC emissions

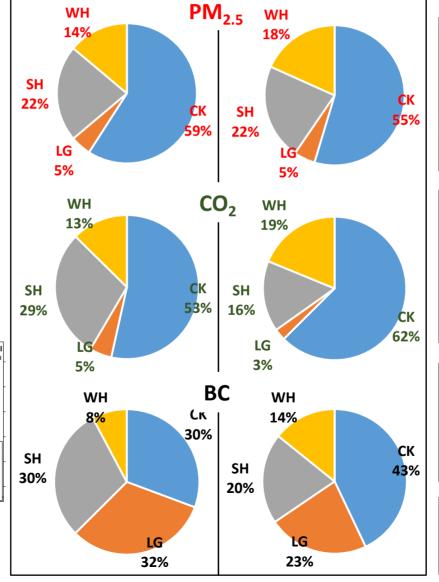

Paticulates (2.5μm)	12,100	tons
Sulfur dioxide	1,360	tons
Nitrogen oxides	210	tons
Carbon monoxide	104,900	tons
Hydrocarbons	30,380	tons
Black carbon (BC)	1,750	tons
Organic carbon	4,220	tons
Carbon dioxide (CO2)	0.38	mil tons

Estimated PM_{2.5} emissions @ 0.25 degree resolution

Modeled share of **HEC** emissions to ambient PM_{2.5}

% contribution of HEC emissions to modeled ambient PM_{2.5} concentrations

(concentrations were conducted using the WRF-CAMx models)

National 29.6%

District 35.7%

The health impacts of outdoor air pollution as ischemic heart diseases (which can lead to heart attacks), cerebrovascular disease (which can lead to strokes), chronic obstructive pulmonary diseases, lower respiratory infections, and cancers (in trachea, lungs, and bronchitis) were estimated using the agedependent relative risk functions detailed in the Global Burden of Disease study and dispersion modeling results from this study. The final calculations were conducted at the district level using the population distribution by age presented in Census-India.

Estimated premature mortality of outdoor air pollution per year apportioned to **HEC** emissions

84,000 -**National** 115.000

208 - 259 District

Emission and dispersion modeling results, pollution animations, and summary sheets by district and state are hosted @ http://www.urbanemissions.info Send your comments and questions to sim-air@urbanemissions.info
